It is a hybrid event,
both in-person and virtual
attendance

ORGANIZED BY

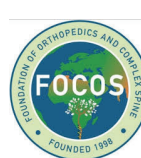

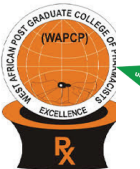

HEALTH &
DEVELOPMENT
CONSULT

CONVENER

Pharmacist Abraham Gyesie

IN COLLABORATION WITH

DESCRIPTION/SUMMARY OF THE EVENT OBJECTIVES

1. To engage the Experts in conversations with their Stakeholders and Clients on the need for and how to achieve Teamwork for Better Healthcare Delivery and the achievement of the SDGs with special reference to health-related issues.

2. To promote the concept of "One Health" which recognizes that the health of humans, animals and ecosystems are interconnected. It involves applying a coordinated, collaborative, multidisciplinary, and cross-sectoral approach to address potential or existing risks that originate at the animal-human-ecosystems interface. Regardless of which of the many definitions of One Health is used, the common theme is collaboration across sectors. Collaborating across sectors that have a direct or indirect impact on health involves thinking and working across silos and optimizing resources and efforts while respecting the autonomy of the various sectors.
(<http://www.onehealthglobal.net/what-is-one-health/>)

3. To promote the "No one is safe until everyone is safe" declaration by the Committee on Social Affairs, Health and Sustainable Development of the

Council of Europe as a result of its concern about the rapidly evolving Covid-19 pandemic situation in Europe and worldwide. The Committee adopted the "No one is safe until everyone is safe" Declaration on 1 December 2021. The Committee insisted that global equitable distribution is vital in order to protect public health.

4. To follow up with three SPECIALISTS ROUNDTABLE MEETINGS to concretize the necessary actions to be taken to teach, promote and entrench the concept and practice of teamwork among healthcare professionals for better healthcare delivery and sustainable development.

5. To make recommendations for appropriate actions to be taken by Policy Makers, Regulators, Healthcare Professionals, Training Institutions, Clients, and Stakeholders to ensure better healthcare delivery and sustainable development.

6. To disseminate such information and recommendations as widely as possible for the benefit of all in Ghana, Africa and Globally.
